Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am	I'm trying to	But	Because	Which makes me feel
Borrower with multiple loans	Understand my full debt situation	I don't know my real financial health or settlement options	Financial calculations are complex and I lack advisor access	Overwhelmed and unsure about my path to being debt-free

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A borrower managing multiple outstanding loans across different lenders.	Understand my overall financial health and find the best settlement strategy for each loan.	I don't know which repayment or settlement approach is realistic, or how to negotiate with lenders effectively.	Financial calculations (DTI, EMI, surplus) are complicated, and I don't have access to personalized financial guidance or negotiation support.	Stressed, uncertain about my financial future, and worried about how to become debt-free.
