Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 Discover & Sign Up	Stage 2 Analyze & Plan	Stage 3 Take Action & Track
Actions What does the customer do?	• Visits the FinRelief AI website/app. • Explores features and benefits. • Registers / creates an account.	• Adds all outstanding loans and financial details. • Reviews AI-calculated financial health dashboard. • Gets personalized settlement predictions.	• Requests AI negotiation strategy and letter. • Uses the negotiation letter generator. • Tracks progress via history log.
Touchpoint What part of the service do they interact with?	• Landing page • Sign up / Login page • Feature overview	• Dashboard • Financial Health page • Settlement Predictor	• AI Negotiation page • Letter Generator • AI History page
Customer Thought What is the customer thinking?	• Will this platform help reduce my debt? • Is my data safe here? • How easy is it to use?	• What is my current financial health? • Which settlement option is best for me? • Can I really save money?	• Will this strategy actually work with lenders? • Am I on the right track? • How much more can I save?
Customer Feeling What is the customer feeling?	• Curious but cautious • Hopeful • Looking for a solution	• Informed • Relieved to understand options • More confident	• Motivated • Supported • Empowered and in control
Process Ownership Who is in the lead on this?	• Frontend/UX Team • Backend Team • Support Team	• Backend Team • AI Integration Team • Financial Engine Team	• AI Integration Team • Backend Team • Support Team
Opportunities How can we improve this stage?	• Simplify registration process. • Add a demo / walkthrough. • Improve onboarding clarity.	• Improve accuracy of financial calculations. • Provide clearer settlement recommendations. • Add more educational content.	• Enhance AI negotiation letter quality. • Add real-time progress alerts. • Offer more personalized support.
