Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the 5-person team throughout the project lifecycle, including how updates, issues, and feedback were managed.

S. No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp Group	Team Members	Daily sync, task updates, blockers discussion
2	Progress Update	Weekly	WhatsApp Group & Google Meet	Team Members	Share weekly progress, completed tasks, next steps
3	Issue / Bug Discussion	As Needed	WhatsApp Group & GitHub Issues	Team Members	Discuss and resolve technical issues or bugs
4	Sprint Review	Bi-Weekly	Google Meet	Team Members	Review completed epics, plan next sprint
5	Final Demo Rehearsal	Once	Google Meet	Team Members	Practice final presentation and demo before submission
6	Project Documentation Update	As Needed	GitHub, Google Drive	Team Members	Update documents, reports, and repository files

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Difficulty aligning schedules across 5 team members with different class timings.	Scheduled standups at a fixed daily time and used WhatsApp for asynchronous quick updates.
2	Merge conflicts and delayed responses during parallel backend/frontend development.	Used GitHub Issues and feature branches to track work and assigned clear owners per epic.
3	Miscommunication of requirements between financial engine and AI negotiation modules in the initial phase.	Conducted requirement review meetings and maintained shared documentation in Google Drive.
